GREETINGS

I love to get full value for every dollar I spend, and you no doubt do also. I know I please you or I lose you.

Have grown Glads for 40 years in a small way but am no world beater, a plain man of 60 with the hoe, enthusiastic over the beauties of nature and the man-made changes in flowers and fruits.

We thank you for last year's business. It was more than expected. We did the best we could, and if any person did not receive full value for every cent, sent me, please let me know. I have hunted the country over for the best varieties and strains, not the newest novelties at outrageous prices, or I would go broke, but the reliable standards that have stood the test of time and are holding their own.

My mission is to the common people who LOVE the FLOWERS but have not felt able to buy them, thought they were only for those with plenty of money, as old prices were very high. It was not the price of the bulb or plant alone you pay for, they are often worth less than half the price asked, the other half is for service, and under this comes expensive catalogues, extensive advertising, clerks and hired help. By cutting this part of service close, I am able to make low prices so long as I don't spread and do more than I can see to myself. We have cut every corner to keep quality up and prices down, and now for the price of two or three movie shows, you can have a bed of beautiful flowers in your garden, all summer long, each morning giving you a more beautiful show of color than the hand of man has ever been able to produce, and at the end of the season you will have more for next year than you started with. A small investment will soon fill a yard. Gladiolus and Dahlias are so easy to grow. Pleasure and happiness cannot be measured in dollars and cents—it's a condition of the mind induced by our surroundings. Make your surroundings pleasant and you have started on the road to happiness and once started, you are pretty sure to keep climbing or planting.

If you need quantity, flowers, evergreens hedge, or trees, let me price them, will make it interesting. Now for the Greatest Garden of your Life.

ALL SHIPPED PREPAID (anywhere)

TERMS—We are too poor to carry anyones account. Do not charge for packing anything at prices quoted herein, large order, special price, different. We will not be responsible for goods after delivery to carrier and take their receipt for same. Nor for resulting crop. If any mistakes occur by my fault, I will make them good to the extent of the purchase price. Do not fail to notify me at once. I will be glad to give full satisfaction.

Special Lawn Collection—You can't beat it. 30 Glads, 6 Dahlias, 10 Iris, 6 Phlox, 2 Hardy Hydrangeas 4 Rhododendrons, 4 Mountain Laurels, 4 small Regal Lilies, for \$5.00. Not prepaid.

Get prices on Tulip, Peonies, Dahlias, Iris, in fall. Special bargain when lifting. Price of everything change in dozen lots or 10 lots. I will be glad to quote best on. If can't sell you as good goods for a little money or less money than any other good fellow, don't buy mine but give me a chance to show you.

GLADIOLUS

We grade in three sizes—Large, Medium and Small Prices quoted are on medium, the surest to give fine bloom and large increases in bulblets.

You can have largest size, one and one-half to two inch at one-third more. Or the smallest, $\frac{3}{4}$ inch and less, most of whic hwill bloom $\frac{1}{4}$ less. You may select five kinds, 20 of each to make the 100, single 1 $\frac{1}{2}$ the price of 3. Dozen prices, 3 times price of 3. You pay for 9 and get 12.

California Dahlia Seedlings, from a special Dahlia Hybridizer, 90% double, many superior to named ones you can't invest \$1.00 and get such a quantity of fine flowers any other way. All different, 12 for \$1.00.

If you want Dahlias cheaper than begging from your neighbor, I will send you 15 of a general mixture for \$1.00 prepaid.

Another thing, don't suppose the high priced ones are the only good ones. Values are regulated more by scarcity than by quality. Next year high priced ones will be cheaper. Another thing, don't think size is the main thing. If it is, grow sunflowers.

The beauty lies in the delicate tints, wonderful shades, beautiful formation of petals, the strong stem and bold carriage, vigor, ability to produce quantity of flowers.

PEONIES

Prices for good string division 2 - 5 eyed, always a good root, 25% less in doz. lots. 3 for price of 2.
